EDUCATION

Master of Science – Computer Science | 2026-2027 (Expected)
Concordia University, Montreal, QC

Bachelor of Technology – Computer Science (GPA: 8.31/10) | 2021 - 2025
Parul University, Vadodara, India

- Relevant Courses: Python, C++, Data Structures, Database Topics, Algorithm Design, Machine learning

WORK EXPERIENCE

Bharti Soft Tech Private Limited, India | December 2024 – March 2025
Data Science Intern

- Analyzed and processed datasets using APIs and internal systems by coordinating with 1 senior team member and 2 team members, supporting timely completion of assigned tasks under daily deadlines.
- Extracted and transformed data from external APIs to support reporting needs, contributing to the development of Power BI dashboards for data visualization and insights.
- Supported team operations by documenting processes and ensuring accurate data handling using computer-based tools and analytical techniques.
- Core Competencies:** Adaptability • Communication • Time Management • Teamwork

PROJECTS

Smart Fleet Management System

- Analyzed fleet operational data to improve fuel efficiency, vehicle performance, and driver behavior using machine learning. The project involved algorithm design based on research papers, data preprocessing, analysis, and predictive modeling on simulated data, with results integrated into a web-based system through frontend-backend communication for decision support.
- Technology:** Python, Pandas, NumPy, Scikit-learn, Machine Learning (Logistic Regression, Random Forest, XGBoost), Data Analysis.

Customer Churn Prediction (IBM Telco Dataset - KAGGLE)

- Analyzed customer demographic, service usage, and billing data from the IBM Telco Customer Churn dataset to predict customer churn using machine learning techniques. The project involved data preprocessing, exploratory data analysis, feature engineering, and classification modeling to identify churn patterns and support data-driven customer retention strategies.
- Technology:** Python, Pandas, NumPy, Scikit-learn, Machine Learning (Logistic Regression, Random Forest, XGBoost)

SUMMARY OF SKILLS AND QUALIFICATIONS

Languages | Python • C • C++ • SQL • HTML • CSS • JavaScript • Java

Framework | React.js • Next.js • Node.js

Databases | MySQL • PostgreSQL • MongoDB

Applications & Tools | MS Office: Word • Excel • PPT • MS Project • GitHub • Docker • Tableau

Operating Systems | Windows • Mac
